

FILOSOPHERS

FILOSOPHERS

Fil Filipov (1946–2022) - the refugee, the company doctor, the enterpreneur, the friend.

Fil is a legendary figure in the heavy machinery industry. He built the American dream - rising from a refugee camp to President of Terex Cranes, famous for restructuring over 50 enterprises worldwide.

Beyond his fierce turnaround brilliance at industry, Fil was a loyal, cherished friend, celebrated for his warmth, generosity, and larger-than-life spirit.

Fil deeply touched everyone of who knew him, leaving part of his FILosophies and life wisdom with us. This is why we call ourselves FILosophers.
